Aircraft Wrecks of the Pacific Northwest David L. McCurry

Merriam Press Aviation History 1. First Edition (March 2013). Aviation archaeology has grown significantly within the past ten years and is represented by groups throughout the entire United States and several countries abroad, mainly in Europe. As aircraft wrecks become much older, their historical significance becomes much greater. It is hoped by many modern day aviation archaeologists that with more public awareness, the historical significance becomes better understood and valued, and that many of these old crash sites will be saved and protected. Most surviving family members of those who lost their lives in these accidents consider these sites as hallowed ground and the mention of these to surviving crewmembers themselves still brings tears to their eyes. Recently, it has become fairly common for surviving family members to contact aviation archaeology groups in an effort to locate crash sites to help bring some type of closure to these families. As a group, we have been successful in making these connections, and in expressing our gratitude in helping with this effort, many aviation archaeologists have spent a lot of their own money, time, and research establishing and building memorials at these sites. It is an expression of their own respect for these families. Contents: Missing B-18 Bomber Found on Oregon's Wolf Mountain; Pikes Peak Claims B-17E 41-2598; Solving the Mystery of P-38E 41-2276; Two Dog Night in Ephrata; Cape Lookout, Oregon: Low Flying B-17 Lost In Fog; B-17 Spins Down From 20,000 Feet; P-38 Exceeds Design Speed Limits; B-24 Strikes Mountain Ridge On Night Training Flight; Vertigo Claims The Life Of A Young Navy Pilot; P-38 Spins Out of the Clouds; B-24 Night Training Flight Ends Near Ukiah, Oregon; F6F Hellcat Mysteriously Disappears From Pasco Naval Air Station; B-24 Orienting For Instrument Practice Hits Mt.
