Driven to Extinction: The Impact of Climate Change on Biodiversity (American Museum of Natural History) Dr. Richard Pearson, American Museum of Natural History

Could more than a million species disappear in the 21st century?

Written by a leading scientist in the field, *Driven to Extinction* draws upon fascinating case studies from around the world, providing balanced and well-reasoned insight into the potential impacts of climate change on the diversity of life. Richard Pearson focuses on the science of the issue, revealing what has happened—as well as what is likely to happen—to some of the world's weirdest and most wonderful species as global temperatures continue to rise.
