Weather Modeling and Forecasting of PV Systems Operation (Green Energy and Technology) Marius Paulescu, Eugenia Paulescu, Paul Gravila, Viorel Badescu

In the past decade, there has been a substantial increase of grid-feeding photovoltaic applications, thus raising the importance of solar electricity in the energy mix. This trend is expected to continue and may even increase. Apart from the high initial investment cost, the fluctuating nature of the solar resource raises particular insertion problems in electrical networks. Proper grid managing demands short- and long-time forecasting of solar power plant output.

Weather modeling and forecasting of PV systems operation is focused on this issue. Models for predicting the state of the sky, nowcasting solar irradiance and forecasting solar irradiation are studied and exemplified. Statistical as well as artificial intelligence methods are described. The efficiency of photovoltaic converters is assessed for any weather conditions.

Weather modeling and forecasting of PV systems operation is written for researchers, engineers, physicists and students interested in PV systems design and utilization.

From reader reviews:

Ricky Burnham:

The book Weather Modeling and Forecasting of PV Systems Operation (Green Energy and Technology) give you a sense of feeling enjoy for your spare time. You may use to make your capable considerably more increase. Book can to get your best friend when you getting anxiety or having big problem together with your subject. If you can make studying a book Weather Modeling and Forecasting of PV Systems Operation (Green Energy and Technology) for being your habit, you can get more advantages, like add your current capable, increase your knowledge about many or all subjects. You can know everything if you like wide open and read a book Weather Modeling and Forecasting of PV Systems Operation (Green Energy and Technology). Kinds of book are a lot of. It means that, science guide or encyclopedia or others. So , how do you think about this publication?

Logan Merritt:

Playing with family in a very park, coming to see the sea world or hanging out with close friends is thing that usually you might have done when you have spare time, after that why you don't try thing that really opposite from that. 1 activity that make you not feeling tired but still relaxing, trilling like on roller coaster you are ride on and with addition info. Even you love Weather Modeling and Forecasting of PV Systems Operation (Green Energy and Technology), it is possible to enjoy both. It is great combination right, you still desire to miss it? What kind of hang-out type is it? Oh seriously its mind hangout men. What? Still don't have it, oh come on its called reading friends.

Samuel Jackson:

Do you one of the book lovers? If so, do you ever feeling doubt when you find yourself in the book store? Try and pick one book that you just dont know the inside because don't judge book by its protect may doesn't work at this point is difficult job because you are afraid that the inside maybe not as fantastic as in the outside appearance likes. Maybe you answer might be Weather Modeling and Forecasting of PV Systems Operation (Green Energy and Technology) why because the wonderful cover that make you consider in regards to the content will not disappoint you actually. The inside or content is actually fantastic as the outside or even cover. Your reading sixth sense will directly guide you to pick up this book.

Willie McCall:

A lot of reserve has printed but it differs. You can get it by online on social media. You can choose the most effective book for you, science, comic, novel, or whatever simply by searching from it. It is referred to as of book Weather Modeling and Forecasting of PV Systems Operation (Green Energy and Technology). You can contribute your knowledge by it. Without causing the printed book, it can add your knowledge and make you actually happier to read. It is most essential that, you must aware about reserve. It can bring you from one destination to other place.
