Rudolf Steiner spoke of history not only as the outcome of mere cause and effect on the physical plane, but also as the result of influences from spiritual beings. Europa, A Spiritual Biography offers a unique view of history that considers Europe from the point of view of the rulerships of the various Archangels of Time -- from Michael's regency between the mid-sixth and the third century B.C., up to his present rulership between 1879 and the twenty-second century. Richard Seddon gives a clear overview of Steiner's extensive research, set against an outline of outer events extended to the present day.
