Having a leadership position and being a leader are *not* one in the same. Your position is something you were appointed to...something you became eligible for by being a good performer in the past.

Being a true **leader**, however, is much different. LEADER is a descriptor...a label that you EARN through specific behaviors. It's based on what you do *today*, and what you will do *tomorrow*--not what's printed on your name tag. Simply put, in order to be a leader, you must do the things that leaders do. This book will show you how!
