An Unrepeatable Miracle: A Myth of Our Own Robert Keller

An Unrepeatable Miracle is a challenging and stimulating book. It is a new creation story that puts meat on the skeleton that C G Jung named A Myth of Our Own. This new paradigm has its roots in traditional wisdom but is made more current and comprehensive through the factual science that has evolved since the corroboration of the Big Bang Theory. The format is illustrated epic poetry that both modernizes our beginnings and elaborates on the dynamics of the Universe -- energies that we are invited to express in our mode of being.
