Color Atlas and Synopsis of Pediatric Dermatology Sandipan, M.D. Dhar

Color Atlas and Synopsis of Pediatric Dermatology is the third edition of this highly illustrated and complete guide to an extensive range of paediatric skin conditions. The book is comprised of 21 chapters, which cover individual dermatological conditions, from eczema and dermatitis to acne, rosacea and urticaria (hives). Each condition is organised into epidemiology, clinical evaluations, treatment and management. This new edition provides the most up-to-date information on each disorder. New chapters on the structure of skin, morphology of skin lesions, infant skin care and sexually transmitted diseases have been added to this edition. The final chapter incorporates information on patient/parent education and counselling, an important aspect of paediatric dermatology practice. The highly organised format of the text accompanied by 1187 full colour images, including 450 illustrations new to this edition, make the Color Atlas and Synopsis of Pediatric Dermatology an excellent visual reference for consultant paediatricians, dermatologists and students. Key Points * Fully revised new edition * 1187 full colour images including 450 new illustrations * New chapters and up-to-date information * Highly organised visual format * Previous edition published 2009
