Fast Car Physics

Chuck Edmondson

Fast Car Physics Chuck Edmondson

Revving engines, smoking tires, and high speeds. Car racing enthusiasts and race drivers alike know the thrill of competition, the push to perform better, and the agony?and dangers?of bad decisions. But driving faster and better involves more than just high horsepower and tightly tuned engines. Physicist and amateur racer Chuck Edmondson thoroughly discusses the physics underlying car racing and explains just what's going on during any race, why, and how a driver can improve control and ultimately win.

The world of motorsports is rich with excitement and competition?and physics. Edmondson applies common mathematical theories to real-world racing situations to reveal the secrets behind successful fast driving. He explains such key concepts as how to tune your car and why it matters, how to calculate 0 to 60 mph times and quarter-mile times and why they are important, and where, when, why, and how to use kinematics in road racing. He wraps it up with insight into the impact and benefit of green technologies in racing. In each case, Edmondson's in-depth explanations and worked equations link the physics principles to qualitative racing advice.

From selecting shifting points to load transfer in car control and beyond, *Fast Car Physics* is the ideal source to consult before buckling up and cinching down the belts on your racing harness.

From reader reviews:

Trisha Sherman:

Reading a reserve can be one of a lot of task that everyone in the world really likes. Do you like reading book so. There are a lot of reasons why people like it. First reading a book will give you a lot of new information. When you read a e-book you will get new information mainly because book is one of many ways to share the information or their idea. Second, looking at a book will make an individual more imaginative. When you reading through a book especially hype book the author will bring one to imagine the story how the figures do it anything. Third, you can share your knowledge to other individuals. When you read this Fast Car Physics, you can tells your family, friends along with soon about yours book. Your knowledge can inspire the mediocre, make them reading a e-book.

Elizabeth Wiggins:

Typically the book Fast Car Physics has a lot details on it. So when you make sure to read this book you can get a lot of profit. The book was published by the very famous author. Tom makes some research prior to write this book. This kind of book very easy to read you will get the point easily after perusing this book.

Rafael Brooks:

This Fast Car Physics is great e-book for you because the content that is certainly full of information for you who else always deal with world and still have to make decision every minute. This book reveal it data accurately using great arrange word or we can state no rambling sentences included. So if you are read it hurriedly you can have whole data in it. Doesn't mean it only gives you straight forward sentences but challenging core information with beautiful delivering sentences. Having Fast Car Physics in your hand like obtaining the world in your arm, details in it is not ridiculous 1. We can say that no reserve that offer you world throughout ten or fifteen tiny right but this book already do that. So , this is certainly good reading book. Heya Mr. and Mrs. busy do you still doubt that will?

Jessica Harris:

Beside this kind of Fast Car Physics in your phone, it may give you a way to get nearer to the new knowledge or information. The information and the knowledge you will got here is fresh from oven so don't always be worry if you feel like an older people live in narrow community. It is good thing to have Fast Car Physics because this book offers for you readable information. Do you often have book but you seldom get what it's facts concerning. Oh come on, that won't happen if you have this in the hand. The Enjoyable agreement here cannot be questionable, just like treasuring beautiful island. So do you still want to miss the idea? Find this book in addition to read it from today!
