Abitika grew up with a talent for changing the way people think. When she used that talent on behalf of her sister, it gained her five years of confinement.

The Citadel has been checking Jrinka colony for years, and Abitika was one of the most promising sightings. They pry her out of her confinement and send her to Morganti in the nick of time.

Recovering from her incarceration, Bits is shocked to find out that her talent for pheromonal manipulation also extends to her mind.

Turnari is the only one willing to take the risk of training the new specialist and teaching her what her mind was capable of. They have a true meeting of the minds but they both want more.
