Supplement 1972-1976 To Genealogies in the Library of Congress: A Bibliography Marian Kaminkow

This Supplement to Genealogies in the Library of Congress lists all genealogies in the Library of Congress which were catalogued between 1972 and 1976, showing acquisitions made by the Library in the five years since publication of the original two-volume Bibliography. Arranged alphabetically by family name, it adds several thousand works to the canon, clinching its position as the premier finding-aid in genealogy.

Like the original two-volume work, the Supplement is a guide to genealogical monographs which can be found in the Library of Congress and other libraries. It is also a guide to the Library's own index to genealogies in sources not primarily genealogical in nature and a guide to the unique collection of non-printed genealogies held by the Library, other than those in its Manuscript Division. Its unique listing of genealogies is achieved by placing family names together which are pronounced alike, or almost alike, even though there are differences in spelling, providing the researcher with a fool-proof look-up method.
