## The Cultural Study of Music: A Critical Introduction

What is the relationship between music and culture? The first edition of *The Cultural Study of Music: A Critical Introduction* explored this question with groundbreaking rigor and breadth. Now this second edition refines that original analysis while examining the ways the field has developed in the years since the book's initial publication. Including contributions from scholars of music, cultural studies, anthropology, sociology, and psychology, this anthology provides a comprehensive introduction to the study of music and culture. It includes both pioneering theoretical essays and exhaustively researched case studies on particular issues in world musics. With an even broader scope and a larger roster of world-renowned contributors, *The Cultural Study of Music* is certain to remain a canonical text in the field of cultural musicology.
