Coherence and Cohesion in Written and Spoken Discourse Olga Dontcheva-Navratilova

'Coherence and Cohesion in Spoken and Written Discourse' provides new insights into the various ways coherence works in a wide spread of spoken and written text types and interactional situations, all of which point to the dynamics and subjectivity of its nature. Despite the variety of approaches the authors adopt, they share an understanding of language as a dynamic and heterogeneous system mediating interaction in social and cultural contexts and explain how coherence and cohesion are reflected in different contextually bound aspects of human communication. The chapters of the book comprise essays by linguists working in the fields of pragmatics, discourse analysis and stylistics which explore features contributing to the perception of cohesion and coherence in spoken and written varieties of English, namely impromptu, academic and political discourse within the former variety, and media, academic and fictional discourse within the latter. This volume, which combines theoretical insights with practical analyses of different varieties of spoken and written English discourse, will be of interest to a wide range of researchers, scholars and students of English.
