Helping Students Make Connections Across Biology

Campbell BIOLOGY is the unsurpassed leader in introductory biology. The text's hallmark values—**accuracy, currency, and passion for teaching and learning**—have made it the most successful college introductory biology book for eight consecutive editions.

Building on the Key Concepts chapter framework of previous editions, *Campbell BIOLOGY, Ninth Edition* helps students keep sight of the “big picture” by encouraging them to:

- Make connections across chapters in the text, from molecules to ecosystems, with **new Make Connections Questions**
- Make connections between classroom learning, research breakthroughs, and the real world with **new Impact Figures**
- Make connections to the overarching theme of evolution in every chapter with **new Evolution sections**
- Make connections at a higher cognitive level through **new Summary of Key Concepts Questions** and **Write About a Theme Questions**

From reader reviews:

Phyllis Callahan:

Book is actually written, printed, or descriptive for everything. You can learn everything you want by a e-book. Book has a different type. As you may know that book is important issue to bring us around the world. Close to that you can your reading skill was fluently. A book Campbell Biology (9th Edition) will make you to be smarter. You can feel much more confidence if you can know about almost everything. But some of you think this open or reading the book make you bored. It is far from make you fun. Why they might be thought like that? Have you seeking best book or appropriate book with you?

Bruce Brown:

This Campbell Biology (9th Edition) usually are reliable for you who want to be described as a successful person, why. The explanation of this Campbell Biology (9th Edition) can be one of the great books you must have is actually giving you more than just simple studying food but feed an individual with information that perhaps will shock your previous knowledge. This book is actually handy, you can bring it all over the place and whenever your conditions throughout the e-book and printed people. Beside that this Campbell Biology (9th Edition) giving you an enormous of experience including rich vocabulary, giving you tryout of critical thinking that could it useful in your day task. So , let's have it appreciate reading.

Barbara Simon:

People live in this new day time of lifestyle always aim to and must have the spare time or they will get great deal of stress from both way of life and work. So , when we ask do people have time, we will say absolutely yes. People is human not a robot. Then we question again, what kind of activity are there when the spare time coming to you of course your answer will unlimited right. Then do you try this one, reading books. It can be your alternative within spending your spare time, typically the book you have read will be Campbell Biology (9th Edition).

Robert Victor:

Your reading sixth sense will not betray you actually, why because this Campbell Biology (9th Edition) book written by well-known writer who really knows well how to make book which can be understand by anyone who also read the book. Written in good manner for you, still dripping wet every ideas and producing skill only for eliminate your current hunger then you still hesitation Campbell Biology (9th Edition) as good book not only by the cover but also with the content. This is one e-book that can break don't judge book by its handle, so do you still needing an additional sixth sense to pick this specific!?! Oh come on your reading sixth sense already alerted you so why you have to listening to yet another sixth sense.
