Supervisors' Safety Manual, Ninth Edition National Safety Council

This manual presents the information supervisors need for the three aspects of loss control: Recognizing hazards; Determining levels of acceptable risk; and Controlling hazards.

It also covers OSHA and other industry standards; principles for safeguarding, maintaining and using tools and equipment; and promoting safety and health, including shiftwork performance, substance abuse and ergonomics.

No safety program can eliminate all the risks and hazards from a job, but Supervisors Safety Manual can help you come as close to this ideal as possible. The more you know about the hazards in your workplace and how to control them, the more everyone in the company will benefit.
