## **Camper Birdhouse** Paul Anderson

This woodworking plan of a birdhouse measures 9" wide by 6" high and 8" deep. The front and back wall is 1/2" plywood and the roof is under layment plywood with saw cuts every 1/2" so the wood would bend to the shape of the walls. I chose to put the saw cuts outside but it works either way. The base measures 10"x8" and I made a frame so this birdhouse could be mounted on a 4x4 post.
