"Prepare to learn about leadership from the experts...Horses!" Leaders today are faced with unprecedented challenges. Leaders have to build relationships that allow for easy transfer of knowledge, skills, and abilities. Horse Sense for Leaders: Building Trust-Based Relationships provides an engaging case study of inter-species trust between horses and humans. The book features the work of Horse Whisperer Monty Roberts, author of the New York Times bestseller The Man Who Listens To Horses. The book blends Robert's work as a world leader of non-violent horse training with current research on the value of being a trust-based leader. This unique blend of research, anecdotal stories, and engaging models allows for an interesting and provocative read on how leaders can engage followers in more effective relationships at work.
